Each zoom service uses between 0.3GB and 0.7GB of data. At the moment we're using David's phone and data all the time but he doesn't have enough spare data for all the services each month and he won't always be present either of course. If you have a smartphone, could your phone and data be used for a service once in a while? Yes, this means another rota! 😊

Please let David know.

Please note:

There are now posters in both churches with QR codes to enable you to record your attendance automatically for track and trace.

(uses the new NHS app.)

I am sure you will all give Richard and his wife, Kath, a very warm welcome when they arrive; in the meantime, I know they are very excited at the prospect of joining us.
